

BLOOMSBURG: Wednesday, June 6, 1886.

We desire that all subscriptions to the STAR OF THE NORTH be immediately settled.

Senator Buckalew arrived home on Saturday evening last, to remain a few days.

Our thanks are due Senators C. R. BUCKALEW and EDGAR COWAN for public documents.

Our drawer contains several valuable communications, which we will continue to publish as space permits.

The soldiers of Cumberland, Cambria and Perry counties have held Conventions endorsing Johnson and Clyner.

Potatoes are unusually scarce in this town consequently they have advanced to an enormous price.

Rev. L. C. Shive, will preach a temperance sermon at the German Reformed Church on next Sunday evening.

See advertisement of "Wool Factory" in this issue. Our young friend, HENRY H. SANDS, is reliable and accommodating, and knows how to do business.

Those of our readers who desire to purchase a town lot, or lots, or valuable business stands, will be careful to read, in this issue, the advertisement of WILLIAM ROBINSON, deceased.

C. B. BROCKWAY, Esq., and Dr. P. H. FREZER, of this place, are absent from their respective offices, on a fishing excursion, to return on or about the 13th inst.

Read communications in another column, signed "Boots for Stationery," "A Working Man," and "A Jackson Democrat."

Boys spare the birds, their nests, their eggs, and their young ones. It is now against the law to destroy them and those who do, subject themselves to the penalty.

We are indebted to the editor of the Republican for the following courteous notice:

"The only reply we have to make to our up town cotemporary is, 'Answer a fool according to his folly.'"

The above denotes the civility, politeness, kind treatment, and good breeding, of our down town cotemporary. Does it not?

In another department of this paper it will be observed that we have been authorized to announce the names of several persons for the office of "Associate Judge," two persons for "Register and Recorder," one person for County Commissioner.

The late hail storm, of the 27th ult., knocked about five hundred lights out of the windows of the College buildings at Lewisburg. We learn that in that vicinity, hail fell to the size of a hen's egg, completely stripping trees and branches of leaves, and ruining the grain and garden truck.

SOMETHING NEW.—We have known of the Sarsaparilla extract being combined with iodine potassium, but never until now with iodine of lime. The superior advantages of this combination, for humors, bad blood, etc., are palpable to all. This valuable remedy, Sarsaparilla with iodine of lime, we advertise to-day.

We are glad to know that some eight thousand dollars have been subscribed for the erection of Seminary buildings in this place; and that a magnificent site, of two acres of ground, has been very liberally offered. There will be another meeting of the stockholders and trustees on next Thursday evening, and we hope our citizens will see with a full determination to make it a success.

We are glad that we are to have a Town Hall in this place, and we hope that the builders will make the safety and convenience of the public their foremost considerations. We suggest, as their enterprise is, in an especial sense, public as well as private, that they let their plans become known before they are decided upon, so as to avoid themselves of suggestions from many sources which would not otherwise be accessible to them.

Our local elections are opening with interest, and promise a spirited campaign—lively times with the people and the politicians—only to terminate at the October Election. The Member of the H. of R., by usage of the District, this season goes to Montour county, and we leave its adjudication with her noble young Democracy. The questions of Congress, Senator, Associate Judge, etc., are already exciting considerable interest, and we can only hope, may culminate in the choice of our best men and most earnest Democrats to office, in the County and District.—[COM.]

The road bridge over the Susquehanna at Harrisburg, connecting with the Cumberland shore, was partially destroyed by fire on Friday night last. The bridge is divided by an island or near the centre.—The half on the eastern side was entirely consumed, together with the toll-house. The cost to re-build the bridge has been estimated at \$70,000. The cause of the fire is not known. It was first discovered on the south side at the fourth span.

At present there appears to be but little in the way of building a branch Railroad from Rupert up little Fishingcreek via Millville to connect with the Muncy Creek Railroad. The route is unobjectionable and all that is needed is for the citizens along the line to put their shoulders to the wheel. Let it, by all means, be done.

LOCUS YEAR.—It is said by some of the oldest inhabitants that it is the year for the general appearance of the locusts, and we have some evidence that their predictions are true. Indigging a small piece of ground a few days since, under an old plum tree, we unearthed about 500 of these unwelcome visitors. They have a whitish-brown appearance, but were extremely lively, and were preparing to make their exit from mother earth.—[Exchange.]

June brings us warm and growing weather, and with the late showers, has a vivifying effect upon the grass and grain crops.

The Poor House question was voted on yesterday, and from what we have been able to learn, nearly all the townships were against it. If the returns don't come in right we presume the Commissioners will veto it.

Dr. Darrin is at the Exchange Hotel, Bloomsburg, astonishing a constant throng of patients by the rapidity with which he relieves them of their aches, pains and disabilities. He remains with us until June 10, then he goes to Sunbury, at Weaver's Hotel, until June 17, at United States Hotel, Milton, from June 17, to 23d. We have not space this week to print the certificates of Martin Dailey, of Danville, who was troubled with a pain in his breast and sides, shortness of breath, &c., cured with one treatment of five minutes; of Harmon Snyder's little girl cured of deafness of six years standing, living in Rush township, Northumberland county; of Mrs. M. Preston, of Danville, who had been afflicted with rheumatism for the past ten years and who had to be helped up stairs. She was cured entirely with two treatments. Besides many others who have been similarly afflicted and treated with great success. We advise the afflicted to call.

Our readers will persevere, with interest, in this issue, the charge of Hon. Wm. Elwell, in the case of the Commonwealth vs. Thos. J. Ingham, et al., in reference to the Act of Congress, March 3, 1865, disfranchising deserters. It will be seen that this is the second case in which Judge Elwell has been required to administer justice in reference to this law. And it will also be noticed, that with great propriety, impartiality, care and caution, he has placed himself, in its investigation and interpretation, firmly upon the record, as a wise and learned Judge. All who have a proper respect for law, liberty, and right, will point with pride to this well settled, and as we think, impregnable determination of the case. His consideration of the question goes to show that he seriously attends, not only to the public confidence restored in him, but to all the requirements of the law.

Who has an idea of abandoning the principles of the Democratic party and joining hands with a little clique of men throughout the State calling themselves JOHNSON MEN? It is all nonsense to think of such thing. This might do for silly old women to talk about, but it will never do for Democrats to indulge any such thought. The Democratic party has maintained its principles too long for any one man or set of men to undertake, with a reasonable expectation of succeeding, to sell it out at this late date. Our party is stronger and purer to-day than it has been for many years. It has become completely "boiled down" and "worked off" in the past few years. Any party that could live, maintain itself intact in passing safely through such a hell as the Democratic party have passed through during the past four years, must and can't help but triumph. Their principles are right, and will yet guide the people to the old Democratic landmarks, and rescue the affairs of Government from out the hands of designedly wicked and corrupt men.

The Editor of the Canfield, Ohio, Herald writes: "WHEATON'S ICH OINTMENT.—It has been said that to 'get the itch' is no disgrace, but it is disgraceful to keep it." No one need have the itch forty-eight hours if they will use 'Wheaton's Ointment,' for it is a sure cure! We saw it tried on the persons of several children and adults a few weeks since, and the itching at once ceased, and in two days not a scab was visible. It is inefficacious in removing pimples, blotches, and especially old sores. We used the Ointment on one of our own children, and the effect was magical. The itch, which has been so prevalent about here, has not yielded to the usual remedies for this complaint, and we are glad that a remedy has been discovered that is so effectual and yet so cheap. THE Editor of the Canfield, Ohio, Herald writes: "WHEATON'S ICH OINTMENT.—It has been said that to 'get the itch' is no disgrace, but it is disgraceful to keep it." No one need have the itch forty-eight hours if they will use 'Wheaton's Ointment,' for it is a sure cure!
